

i-tec USB-C Metal HUB 2x USB 3.0 + 2x USB-C

i-tec USB-C Metal HUB 2x USB 3.0 + 2x USB-C

OPIS PRODUKTU

USB-C and Thunderbolt™ 3 or 4 are ever more popular on modern laptops and tablets. Along with this more widespread use also comes a decrease in the number of USB ports on laptops. If you need to connect accessories to your device and find that you have a shortage of ports, this little, handy hub is here to help.

The hub provides 4 additional USB ports: two standard USB 3.0 ports, and two USB-C ports. Connect your external keyboard and mouse, transfer data or films from a USB flash drive at a speed of up to 5 Gbps or charge your mobile devices (at standard USB speed with 0.9 A).

The hub requires no drivers, simply connect it by a USB-C cable and you can start using it immediately. The hub features built-in overvoltage protection for your computer for the event of a short circuit in your peripherals. And of course, the hub is backwards compatible with USB 2.0. Thanks to its compact size and low weight, you can carry the hub in your bag at all times – its metal casing protects it from damage or scratches.

CECHY PRODUKTU

- 1x integrated USB-C cable for connection to a device (19 cm)
- 2x USB-C gen. 1 port (data only)
- 2x USB 3.0 port
- LED indication
- Overvoltage and current protection
- OS: Windows 7 / 8 / 8.1 /10, macOS X, Linux, Android, Chrome OS
- Product dimensions: 110 x 30 x 11 mm
- Product weight: 42 g
- Package dimensions: 155 x 100 x 20 mm
- Package weight: 123 g

Hardware requirements:

- Device with a free USB-C or Thunderbolt™ 3/4 port

Operating system:

- Windows 7 / 8 / 8.1 /10, macOS X, Linux, Android, Chrome OS
