

## i-tec USB-A / USB-C / Thunderbolt Dual Display Docking Station

### PRODUCT DESCRIPTION

With this universal i-tec docking station, you can achieve an amazing graphic resolution of up to 5K / 60Hz. The docking station connects via a USB-A interface and therefore does not support charging laptops and tablets.

Customize your workspace and connect your favorite accessories to your laptop or tablet with a USB-A or USB-C interface. With this docking station, you can avoid constantly connecting and disconnecting all your devices every time you take your laptop or tablet with you. Another advantage is a tidier desk, free of messy cables. Simply connect the docking station with a single cable and you can start using it right away. Both connection cables (USB-C to C, USB-C to A) are included in the package. Driver installation is automatic from Win 10, for other operating systems please download the drivers [here](#).

Enjoy an amazing big screen experience when watching movies in 4K / 60Hz, professional graphics work, media streaming, viewing presentations or websites. The docking station is equipped with four graphics outputs, allowing you to use various combinations of two displays. You can connect either 2x HDMI or 2x Display Port or 1x HDMI and 1x Display Port, always with a resolution of up to 4K. When connecting a single monitor via 2 DP cables, you can achieve a resolution of up to 5K\*, but your computer's graphics card must support 5K resolution. Thanks to its own powerful DL 6950 controller, the docking station does not burden your laptop or tablet.

The docking station also offers audio input/output, a gigabit network card, six USB-A ports, a Kensington Lock, and an ON/OFF switch. In addition, it features a compact and elegant design and a passive cooling system.

\* 5K resolution is only supported by Windows.

## PRODUCT FEATURES

- 1x USB-C port for connecting to the host device with USB-C or USB-A port
- Docking station technology: [DisplayLink](#)
- Video ports:
  - 2x Display Port ([DP++ support](#))
  - 2x HDMI
