

## i-tec USB-C / USB 3.0 Internal Front panel

i-tec USB-C / USB 3.0 Internal Front panel

### PRODUCT DESCRIPTION

Advanced USB-C / USB 3.0 front panel for installation into the 3.5" slot of your computer. The USB ports on the panel interconnect to the computer's motherboard using the enclosed cable. The panel is all-metal, with anti-oxidising surface finish to ensure colour stability. This device enables you to use 2 USB 3.0 and 2 USB-C data ports located on the front of your computer, meaning you'll never have to look for these ports on the back of your computer ever again.

Using the 65 cm long 20-pin cable, the USB connectors can be plugged into the 20-pin connector on your motherboard or onto the same connector on i-tec PCIe Card 4x USB 3.0 (PCE22U3).
